

## EMPLOYMENT OFFER

**OE2020-G2**

**AVAILABLE POSITION:** Field Geologist  
**Employment type:** Permanent

---

Azimut Exploration Inc. is looking for a passionate geologist to contribute to the growth of its numerous exploration projects in Quebec. Reporting to the senior project geologist, the field geologist will work closely with the extended team and will be exposed to diversified tasks and contexts offering a broad professional development.

### General Responsibilities

- Carry prospection activities and evaluations in the field to validate exploration targets; compile and synthesise observations in analog and digital formats
- Participate in drilling campaigns including core logging, measurements and creating maps and sections
- Participate in the QA/QC protocols for sampling and the integrity of databases
- Conduct various analyses, studies and synthesis and formulate recommendations
- Write technical reports
- Assist the logistic dimension of projects
- Adhere to laws, regulations, and best practices

### Required Qualifications

The professional sought displays passion for mineral exploration in the field, excellent general knowledge of deposit types, is rigorous with excellent organisation sense, and a willing respectful character favoring efficient teamwork.

- Diploma in geology or geologic engineering
- OGQ or OIQ member in good standing
- Canadian citizenship or permanent residence status in Canada
- Minimum 3 years' experience in mineral exploration
- Proficiency in French and English
- Apt to work remotely in the field
- Proficient with geographical information system (GIS) digital platforms (e.g. ArcGIS, QGIS)
- Proficient with logging software (e.g. DHLogger, Geotic)
- Proficient with digital office platforms (e.g. Microsoft Office)
- Knowledge of 3D visualization and modelling software (e.g.: Leapfrog, Datamine, Gemcom, Vulcan, GOCAD) is considered a plus

*Azimut is committed to the respect of human rights and fairness of opportunity. Hiring decisions will be made on the merit of demonstrated competencies in relation to Azimut's requirements. Azimut offers professional development based on diversity of tasks and technical mastery with a highly motivated team.*

## **About Azimut**

*Azimut is a mineral exploration company whose core business is centred on target generation and partnership development. The Company uses a pioneering approach to big data analytics (the proprietary AZtechMine™ expert system) enhanced by extensive exploration know-how. Azimut maintains rigorous financial discipline and has approximately 65.8 million shares outstanding. Azimut's competitive edge against exploration risk is founded on systematic regional-scale data analysis and multiple concurrently active projects.*

**To apply, please send your CV at the following e-mail referencing the posting number OE2020-G2 in the subject:**

**AZIMUT EXPLORATION INC. is grateful for your interest and we look forward to learning more about you!**

## EMPLOYMENT OFFER

**OE2020-S2**

**AVAILABLE POSITION:** Senior Geologist  
**Employment type:** Permanent

---

Azimut Exploration Inc. is looking for a seasoned senior geologist to contribute to the development and supervision of its numerous exploration projects in Quebec. Reporting to Azimut's direction, the senior geologist will work closely with the extended team to ensure the progress of projects under his responsibility.

### General Responsibilities

- Participate in the planning of technical programs and budgets
- Supervise the execution of field work (prospecting, drilling)
- Carry mineral potential evaluations in the field and from desktop
- Maintain and supervise QA/QC protocols
- Support and supervise the development of geologists in training
- Lead and participate in analysis and synthesis including regional assessments
- Write and revise technical reports; provide recommendations
- Promote and ensure the respect of laws, regulations, and best practices

### Required Qualifications

The professional sought possesses strong field experience, is highly motivated and comfortable applying his/her knowledge in mineral exploration across the different geological contexts throughout Quebec. The required profile displays rigour, a practical sense, an excellent general knowledge of economic geology, excellent analytical capabilities and communication skills.

- Diploma in geology or geologic engineering
- OGQ or OIQ member in good standing
- Canadian citizenship or permanent residence status in Canada
- Minimum 8 years' experience in mineral exploration
- Minimum 2 years' experience in a management role
- Solid experience in drilling campaigns, including helicopter-supported campaigns
- Proficiency in French and English
- Mastery of geographical information system (GIS) digital platforms, such as ArcGIS, QGIS and of logging software (e.g. DHLogger, Geotic)
- Knowledge of 3D visualization and modelling software (e.g.: Leapfrog, Datamine, Gemcom, Vulcan, GOCAD)
- Mastery of digital office platforms (e.g. Microsoft Office)
- Apt to work remotely in the field
